Stiefel Calm Plus

For relaxation and well-being
For support in stressful situations

Supplementary feed for horses

Stiefel Calm Plus with magnesium can help support energy metabolism, muscle function and the nervous system. It contains valuable amino acids, including L-tryptophan. Stiefel Calm Plus is suitable as a feed for horses during periods of increased stress. Plant-based flavouring compounds ensure very good acceptance.

Composition

magnesium fumarate
passion flower (ground)

Analytical constituents

crude protein 2.40%; crude oils and fats 2.00%; crude ash 10.80%; crude fibre 3.00%; sodium 0.01%; moisture 8.80%

Additives per kg:

Nutritional additives

L-lysine monohydrochloride, technically pure (3c322)	5,000 mg
L-tryptophan (3c440)	5,000 mg
