Stiefel E-Plus Pellet

For performance and fitness
Vitamin E with selenium + lysine

Supplementary feed for horses

Stiefel E-Plus Pellet can be used to supplement the ration in the event of feed-related vitamin E deficiencies. A lack of vitamin E and selenium can lead to impair performance, condition and resilience. Stiefel E-Plus Pellet can improve the oxygen supply and thus contribute to an increase in performance.

TIP! Stiefel E-Plus Pellet is also suitable for broodmares and stallions.

Composition

Maize 33.30 %; Wheat feed 16.00 %; Soy bean extraction grist, steam-heated 10.00 %; Dextrose 3.00 %; Propylene glycol 1.30 %; Beet molasses 1.00 %; Soy plant oil 0.70 %

Additives per KG

Nutritional additives:

Vitamin E/all-rac- α -Tocopheryl acetate (3a700) 100,000 mg; Vitamin C as natrium-calcium-ascorbyl phosphate (3a312) 25,000 mg; L-Lysin-monohydrochlorid (3.2t.) 25,000 mg; Selenium as sodium selenite (3b801) 15 mg

Analytical components

Crude protein 12.10 %; Crude fiber 2.00 %; Crude oils and fats 12.70 %; Crude ash 18.50 %; Sodium 0.80 %

Feeding recommendation

Large horses (600 kg body weight) 50 g / day

Small horses 25 g / day

(1 heaped measuring spoon = approx. 25 g)

This feed contains more vitamins and trace elements than complete feeds and is therefore restricted to a maximum of 300 g per day.

Storage note

Store the feed in a cool and dry place protected from direct sunlight. Use soon after opening. Store out of reach of children.
